**Net Price Calculator:** The Net Price Calculator (NPC) is an online tool that provides estimates of college costs for prospective students, based on a set of inputs such as family income, size, and assets. THE NPC calculates estimated grant and scholarship aid and subtracts that total from the college's cost of attendance, resulting in an estimated net price. NPC then goes the next step and subtracts the student's estimated loans/financial aid to determine the estimated remaining cost.

**Work Permits:** There are new directions for minors (ages 14-17) wishing to get a work permit.

1) Complete the on-line application:

<https://www.dllr.state.md.us/ChildWorkPermit/web/content/Home.aspx>

2) Print the work permit. 3) Get the work permit signed by the minor (student), parent or legal guardian and employer (work permits are only valid when signed by all parties) During the 2014 session, the Maryland General Assembly passed House Bill 467 that modified the requirements that must be met before a minor work permit can be issued. The change requires the Minor's parent or guardian to certify that the age on the minor work permit is correct rather than producing proof of age to an issuing

officer. This change allows the Department of Labor, Licensing and Regulation to grant applicants the ability to download and print a work permit directly from the application website. The new system began July 29. Minors are no longer required to obtain their work permit from an issuing officer.

a MA in School Administration from Hood College. Upon her graduation from Lincoln University, Maria returned to Frederick County where she began her 45- year tenure with Frederick County Public Schools (FCPS).
