

# **Career and Technology Education**

## **Academy of Health Professionals**

### **AOHP: Nursing Assistant**

Nursing Assistant builds on the knowledge base from foundations courses in Academy of Health Professionals to develop the skills needed for Maryland Board of Nursing certification as a Certified Nursing Assistant (CNA) and Geriatric Nursing Assistant (GNA). Students develop their "soft" skills in combination with their technical skills by participating in supervised clinical experiences at the local hospital and nursing homes.

#### **Standards**

Indicators
