

Maryland has revised vaccination requirements for **students entering Kindergarten in the 2014-2015 school year.**

Kindergartners starting school in fall 2014 are required to have **TWO** doses of Varicella (Chickenpox) vaccine.

The Frederick County Health Department advises that parents/guardians may obtain the required vaccinations and/or proof of vaccinations from their child's primary care provider. If students don't have health insurance or insurance doesn't cover the cost of the vaccines, they may obtain the required vaccinations from the Frederick County Health Department.

If you have any questions about the new vaccination requirements, please contact the health room at your child's school.
