

# Frederick County

## Virtual School

### MISSION

The mission of the Frederick County Virtual School (FCVS) is to:

- ✓ Engage learners through the development of strong relationships
- ✓ Expand access to various modes of digital and mobile learning
- ✓ Empower choices to support success in a global society

### VISION

The FCVS will utilize emerging technologies and expert personnel to partner with high schools, families, and the community to engage learners, expand access, and empower choices in preparation for specialized learning, the world of work, and success in a global society.

### GOALS

1. Mentors and teachers will prioritize relationships to support learner success.
2. Learners will develop self-advocacy, communication, reflection and goal-setting skills.
3. Student access and success will equitably represent the FCPS high school population.
4. Staff training will be research-based and reflect best practices in digital learning.
5. A robust data collection system will monitor success for learners and programs.
6. Curricula, instruction, and assessment will be reviewed for alignment and rigor.
7. Technical infrastructure will facilitate timely and intuitive access to digital media, resources, and communication with teachers.
