

Homework Help!

The following links provide a resource for helping you help your child with homework.

<http://studyjams.scholastic.com/studyjams/jams/math/index.htm>
(Mini lessons are provided for various math topics.)

<http://www.khanacademy.org/>
(Create a login/password and explore the tutorials and examples of CCSS math strategies. Students can work on standards-based practice questions, too.)

<http://commoncore.org/parents>
(Scroll down the page and select a grade level. Specific focus areas are described along with sample problems that address the standard.)

<http://scholastic.com/parents/resources/collection/homework-project-tips/homework-help>
(Articles are included which supply tips to help parents deal with homework struggles.)

<http://nclid.org/students-disabilities/homework-study-skills/help-kids-tricky-math-homework>

(More math homework tips are found here.)

http://hechingerreport.org/content/parents-return-to-school-to-help-children-with-common-core-inspired-homework_13873/

(Hear how other parents around the country struggle with helping their child with math homework, and learn about the rigor and importance of the CCSS standards.)

http://www.internet4classrooms.com/links_grades_kindergarten_12/parents_mathematics_help.htm

(Includes a collection of math-related links and ideas to help your child with math concepts and math homework.)
