**A note about calculators:** Since we are a BYOD school, families do not necessarily need to go to the expense of purchasing a calculator. Students can access their devices during instructional activities when a calculator is needed. 6th and 7th graders should have access to a basic 4 function calculator, which can be found on most devices. Students enrolled in 7th Accelerated math or 8th grade will need access to a scientific calculator which can be downloaded on devices at no cost. The 8th grade Algebra 1 course is the only course that a graphing calculator (TI-83 or TI-84) is recommended.
