September 2011

I dreamed I stood in a studio
And watched two sculptors there,
The clay they used was children's minds
And they fashioned them with care.
One, a teacher used the tools of school
Reading, music, and art.
The other, a volunteer, worked with a
Guiding hand, and gentle loving heart.
Day after day, the teacher toiled
With a touch that was deft and sure,
While the volunteer labored
By the teacher's side
And polished and smoothed them o'er.
And when at last, their task was done
They were proud of what they had wrought.
For the things they had molded together
Could neither be sold nor bought.
And each agreed working together
Was better than working alone.
For beside the teacher and volunteer
Stood confident children on their own.

TOBACCO-FREE SCHOOLS – POLICY #122.1

“The Frederick County Board of Education adopted a tobacco-free school environment policy that became effective July 1, 1993. This policy was developed in conjunction with the Maryland State Board of Education’s Tobacco-Free School Environment Regulation (COMAR 13A.02.04).

Maryland law restricts the use of tobacco on school property. FCPS regulation prohibits smoking in school buildings, on school property, and in FCPS vehicles at all times.

A non-employee of the Frederick County Public Schools who violates this policy shall be subject to several degrees of reprimand from a verbal warning to a non-trespass citation for repeated violations.”

SEXUAL HARASSMENT – POLICY #237

A. General Statement of Policy

1. It is the policy of the board to maintain a learning and working environment that is free from sexual harassment. The board believes that sexual harassment is offensive and morally wrong. Therefore, the board prohibits sexual harassment of, or by, employees, students, volunteers, vendors, or others having business or contacts with the school system. The board will investigate all complaints of sexual harassment and take appropriate action to end the harassment. Employees and students who violate this policy will be disciplined, as outlined in sub-section G of this policy.
2. Sexual harassment is also a violation of federal and state employment laws. Under certain circumstances, sexual harassment may constitute child abuse. The school system will notify appropriate enforcement officials in every case where there is reason to believe that child abuse has occurred, in accordance with the Maryland child abuse reporting law.

B. Reporting Sexual Harassment

Volunteers who believe they have witnessed or been the subject of sexual harassment are directed to report it immediately on “sexual harassment report forms,” available in every board building.

CHILD ABUSE AND NEGLECT – POLICY #319

Every school system employee or school volunteer who has reason to believe that a child has been physically or mentally abused or neglected is required by law to report the incident to the local Department of Social Services or the appropriate law enforcement agency, to the principal of the school, and to appropriate school system staff.

More information on sexual harassment and child abuse is available in board policies and regulations. These are available at your school or from the Office of Legal Services at 301-696-6851.

WEAPONS POSSESSION – REGULATION #300-39

It is a serious offense to possess any rifle, gun, knife, or deadly weapon of any kind on any school property in Maryland. Offenders face criminal prosecution from the State’s Attorney’s Office and sever personnel consequences from the school system. All employees, including volunteers, should be familiar with the school system’s regulation on this issue:

A. Criminal Law and Penalties

The criminal code of Maryland makes it illegal to possess a weapon on school property. Article 27, section 36A states:

“Carrying or possessing deadly weapons upon school property

- (a) No person, unless otherwise excepted in this section, shall carry or possess any rifle, gun, knife, or deadly weapon of any kind on any public school property in this State.
- (b) Any person who violates this section shall, upon conviction, be guilty of a misdemeanor and shall be sentenced to pay a fine of no more than one thousand dollars (\$1,000.00), or shall be sentenced to the Maryland Department of Correction for a period of not more than three (3) years. Any such person who shall be found to carry a handgun in violation of this section shall be sentenced as provided in Section 36B of this article.”

Additionally, section 36B of Article 27 imposes more severe penalties for the possession of a handgun on school property.

B. Personnel Consequences – Termination

School system employees are forbidden as a personnel matter from possessing a weapon on school property. Employees who possess or bring weapons on school property may be terminated. The school system’s prohibition on carrying or possessing a weapon on school property applies to loaded and unloaded weapons and to everyone who has a weapon within their possession, control, or direction. For example, this prohibition applies to weapons contained in automobiles, and to weapons contained in glove compartments or the trunks of automobiles. This personnel procedure will be followed regardless of whether the employee is convicted under Maryland’s criminal statute.

SUGGESTIONS FOR ENCOURAGING AND PRAISING STUDENTS

- You really outdid yourself today.
- Mary is waiting quietly.
- That's an interesting way of looking at it.
- Now you've got the hang of it.
- That's a very good observation.
- Thank you for raising your hand.
- You make it look easy!
- That's coming along nicely.
- Tell us more about your idea.
- Your work shows you are enjoying it.
- It was a pleasure for me to be with you today!

Students need to know how they are doing. Praise and encouragement are powerful motivators to improve achievement.

Volunteers should be careful to avoid giving students "unearned" praise as it will diminish the effect of authentic praise.

GREETINGS

Dear Volunteer,

I commend you on your decision to become a Frederick County school volunteer!

You will be a part of a team that is striving to provide a first class education for every student PreK-12 throughout all of our schools. In your role as a volunteer, you will be called upon to provide valuable support and assistance to teachers and staff in the day-to-day business of educating children.

A first class education is one in which all students, regardless of race, gender, disability, or socioeconomic status master the essential curriculum and are challenged to fulfill their potential. It is a program that meets the students' individual needs and interests. Our students need to not only know the content, but they must use higher level thinking skills and apply knowledge in problem solving.

Your contribution as a school volunteer is truly appreciated by all of us, most especially by the children who will be the beneficiaries of your time and efforts. Often times, an extra set of helping hands, or an encouraging word makes all the difference to a child.

Thank you for reaching out and sharing your talents with the children in our community.

Theresa R. Alban
