How to connect a Chromebook to a wireless network

Log into the device using the FCPS username and password. Families should contact the school if they do not have this information.

Click the quick settings panel in the bottom right corner of the screen (where the time are displayed).

Select the wireless icon (may display “not connected / no network” prior to connecting).
Select the name of the intended wireless network.

Select the name of the intended wireless network.

Enter the password and click connect.
For information locating the name and password for a FCPS issued mobile hotspot see the information below:

Hold the power button down for 3 seconds

Press the power button to scroll through Hotspot info

PLEASE BE AWARE ALL FCPS HOTSPOTS HAVE DIFFERENT WIFI NAMES
