

## Calendar

Make history come alive every day by showing video content to your students that presents events that occurred on a particular calendar day, week or month in history.

Access the Calendar from anywhere on the site by clicking on the Teacher Center link in the navigation bar at the top of the screen. The Calendar tool is a great way to locate videos that are associated with important events in history, prominent people, commemorative events and cultural celebrations.

Calendar events are categorized by subject area including: Science, Mathematics, Social Studies, Arts & Humanities, Language Arts, Biography and Health & Guidance. You can customize your display by viewing all events for a specific day or choose to view events for an entire week or month, by subject. Click on an event title to view a full event description and a list of *unitedstreaming* resources which may include full videos, video segments, articles and images.

#### Science

[1920: Panama Canal Formally Opens](#)  
The Panama Canal first opened to shipping in 1914, but the event was overshadowed by news about World War I. One of the greatest engineering feats in history finally had the world's attention at its formal inauguration in 1920. More than...

#### Mathematics

[1895: Birthdate of B. Buckminster Fuller, Mathematician and Visionary](#)  
Known as Buckminster or Bucky Fuller, Richard Fuller's futuristic ideas brought him fame as a mathematician, engineer, architect, and inventor. One of his most famous innovations, the geodesic...

#### Social Studies

[1974: Watergate Conspirators Convicted](#)  
White House aides G. Gordon Liddy and John Ehrlichman plus two others were convicted of conspiracy and perjury charges in connection with the Watergate scandal. The name that stuck to this political...

#### Art & Humanities

[1739: Birthdate of Josiah Wedgwood, Artist and Potter](#)  
English potter Josiah Wedgwood invented techniques that revolutionized the pottery industry in the early 1760s. Founding his stoneware manufacturing operations on scientific principles, he developed new pigments and experimented with different raw materials, creating agaware and stoneware...

#### Integration Idea:

Locate historic events or fun facts that occurred on students' birthdays using the Calendar tool.
