When you find a set of cards in Quizlet and you want to make them your own to customize, you first must export the cards and then import them into your account. This only takes a few clicks.

1. Under the set of flash cards, click the EXPORT link.

2. Click the “REUSE THESE TERMS” button on the next page.

3. On the next page, give your reused set a new name, a description, and enter 1-2 subjects to identify it. Uncheck the “Allow Discussion” box to prevent inappropriate comments from appearing on your flashcard set. Select VISIBLE TO Everyone and EDITORS just me in the drop down box. This will allow you to link directly to the Quizlet page for your new set and allow only you to make changes to the set.

4. You now have the opportunity to edit the terms and definitions or add images. Make any desired changes to flashcards at the bottom of the page.

5. When done, click CREATE SET at the bottom of the page.
