

YELLOW SPRINGS ELEMENTARY SCHOOL

Mission

Engage us in learning!

Be curious. Ask questions. Work together.

Educate us for Excellence!

Be a Thinker. Be a Problem-solver. Be a communicator.

Empower us for the future!

Perseverance. Tolerance. Lifelong learning.

Vision

Engage, Educate, and Empower for the Future!

Engagement is the foundation of all learning at YSES. This begins with building positive relationships, with all students and their families, that transcend the classroom and school walls. Students and families are actively engaged in the process of learning. Engagement is a mutual feeling of caring, trust, honesty and support.

Education at Yellow Springs utilizes interest based, real world experiences that promote academic and social excellence. Families are included and valued as an important partner in the education of their child.

Empowerment will create a school community that supports a growth mindset. Yellow Springs students will become real world problem solvers who take risks and persevere to their infinite potential as life-long learners. They will become an asset to the world community by having a strong work ethic, being tolerant (open-minded), and by leading with pride and integrity.
